4TH NATIONAL ORAL HEALTH RESEARCH INITIATIVE CONFERENCE

5 - 7 NOVEMBER 2025 | DEWAN DAMAR SARI, PUTRAJAYA

REVOLUTIONIZING DENTISTRY: FROM RESEARCH BENCH TO PATIENT CARE

KEYNOTE SPEAKERS

PROF EMERITA DATUK DR ASMA BINTI ISMAIL
VICE CHANCELLOR
IMU UNIVERSITY

PROF EMERITUS DR ROSNAH BINTI MOHD ZAIN
DEPUTY VICE-CHANCELLOR
(MAHSA UNIVERSITY)

YBhg. Datuk Dr Mahathar bin Abd Wahab
Director General of Health Malaysia
Ministry of Health, Malaysia

Officiator, 4th NOHRI 2025 Conference

MEET OUR SPEAKERS

DR. MOHD SALMAN MASRI

PROF DR HIEN NGO

PROF DR V K VIJAY

PROF DR FIRDAUS HARIRI

DR SINDHUJA RAJADORAI

ASSOC PROF DR MARYATI MD DASOR

DR JOHN NESAN
INDIA

ASSOC PROF DR NOOR ADDEEN

Advisor 4th NOHRI 2025
Prof Dato' Dr Mohamed Ibrahim Bin Abu Hassan
Dean, Faculty of Dentistry
MAHSA University

Platinum Sponsor

Gold Sponsors

Preconference Workshop 5th November 2025 (Wednesday)

Time	Dewan Sari 1	Speaker
WORKSHOP 1		
09.00am - 10.30am	Update on the IADT Guidelines	Prof. Dr. Hien Ngo
10.30am - 10.45am	Tea Break	
10.45am - 1.00pm	Splinting of an avulsed tooth with pre-impregnated filers	Prof. Dr. Hien Ngo
WORKSHOP 2		
02.00pm - 02.45pm	Introduction to Virtual Reality and Surgical Planning in Surgical Procedure	Dr. John Nesan & Mr. Charles
02.45pm - 03.15pm	Role of Patient-Specific Implants in Cranio- Maxillofacial Surgery	Dr. John Nesan
03.15pm - 04.30pm	Group A: Hands-On Demo - PSI Group B: VR Training with Headset	Dr. John Nesan & Mr. Charles
04.30pm - 04.45pm	Tea Break	
04.45pm - 05.45pm	Hands-On Demonstration (PSI + VR)	Dr. John Nesan & Mr. Charles
05.45pm - 06.00pm	Panel Discussion with Q&A + Closing	Dr. John Nesan & Mr. Charles

Conference Day 1 6th November 2025 (Thursday)

Time	Scientific Programme	Venue
08.00am - 08.30am	Registration	
08.30am - 09.30am	Plenary 1 Topic: Title Of Guest Lecture: Virtual Surgical Planning In Maxillofacial Surgery – Useful Tool Or Expensive Alternative Speaker: Dr John Nesan	Damar Sari 1
09.30am - 10.30am	Plenary 2 Topic: Minimal Intervention Dentistry: An Update On Caries Management Speaker: Prof Dr Hien Ngo	Damar Sari 1
10.30am - 11.00am	Morning Tea Break	Damar Sari 3
11.00am - 11.30am	Opening Ceremony	Damar Sari 1
11.30am - 12.30pm	Keynote Lecture Topic: Revolutionizing Dentistry: Bridging The Bench To Chair Gap Speaker: Prof. Emerita Datuk Dr Asma Binti Ismail	Damar Sari 1
12.30pm - 2.00pm	Lunch	Damar Sari 3
2.00pm - 2.45pm	Plenary 3 Topic: Bridging Research and Practice: Development and Commercialization of a Novel Stability Assessment for Orthodontic Mini-Implants Speaker: Assoc Prof Dr Maryati Md Dasor	Damar Sari 1
	Plenary 4 Topic: The Host Response Puzzle of Periodontal Medicine: A New Horizon in Managing Periodontitis in Diabetes patient Speaker: Dr Mohd Salman Masri	Damar Sari 2
2.45pm - 4.30pm	Oral Presentation Poster Presentation	Damar Sari 1&2 Front of the Lobby

Conference Day 2 7th November 2025 (Friday)

Time	Scientific Programme	Venue
08.00am - 08.30am	Registration	
08.30am - 09.30am	Plenary 5 Topic: MIPS: Renewing Your Smile and Health Speaker: Prof Dr V K Vijay	<i>Damar Sari 1</i>
08.30am - 09.30am	Plenary 6 Topic: Occlusion Without Confusion: Advancing Patient Care Through Scientific & Clinical Insight Speaker: Assoc Prof Dr Noor Addeen	<i>Damar Sari 2</i>
9.30am - 10.30am	Plenary 7 Topic: Transforming Dentistry: From Research Insights to Real-World Impact Speaker: Dr Sindhuja Rajadorai	<i>Damar Sari 1</i>
9.30am - 10.00am	Oral Presentation	<i>Damar Sari 2</i>
10.30am - 11.00am	Morning Tea Break	<i>Damar Sari 3</i>
11.00am - 12.30pm	Oral Presentation Poster Presentation	<i>Damar Sari 1&2</i> <i>Front of the Lobby</i>
12.30pm - 02.30pm	Lunch	<i>Damar Sari 3</i>
02.30pm - 03.15pm	Plenary 8 Topic: Innovating Orthognathic Surgery in Digital Era: The Shift Towards Minimally Invasive And Patient Specific Implants Speaker: Prof Dr Firdaus Hariri	<i>Damar Sari 1</i>
03.15pm - 04.00pm	Keynote Lecture Topic: Research-Clinical Partnerships: Advancing Patient Centred Care Speaker: Prof Emeritus Dr Rosnah Binti Mohd Zain	<i>Damar Sari 1</i>
04.00pm - 04.30pm	Prize Distribution and Closing Ceremony	
04.30pm - 05.00pm	Refreshments

UNIVERSITY

4TH NATIONAL ORAL HEALTH RESEARCH INITIATIVE CONFERENCE

5 - 7 NOVEMBER 2025 | DEWAN DAMAR SARI, PUTRAJAYA

REVOLUTIONIZING DENTISTRY: FROM RESEARCH BENCH TO PATIENT CARE

CALL FOR ABSTRACT

TOPICS

- Translational Research in Oral Health**
Bridging basic science with clinical application how discoveries in microbiology, genomics, and immunology are advancing dental care.
- Digital Dentistry and AI Integration**
Leveraging artificial intelligence, digital imaging, and CAD/CAM technologies to enhance diagnostics, treatment planning, and workflow efficiency.
- Oral Cancer and Pathology**
Early Detection and Innovation in Care
From bench research to biopsy - emerging biomarkers, diagnostic technologies, and treatment pathways revolutionizing oral cancer management
- Oral Health Policy and Public Health Innovation**
Translating research into policy: improving access, reducing disparities, and integrating oral health into broader healthcare systems
- Advancements in Biomaterials and Tissue Engineering**
Exploring novel materials and lab-grown tissues that are transforming restorative and regenerate dental treatments.
- Regenerative and Stem Cell Therapies in Dentistry**
Cutting - edge applications of stem cells in pulp regenerating, bone healing, and craniofacial reconstruction.
- Minimally Invasive and Laser Dentistry**
Emerging technologies that reduce patient discomfort and preserve healthy tissues - science - driven approaches to conservative care.
- Teledentistry and Remote Patient Monitoring**
Innovative models for delivering dental care beyond the clinic - how remote technologies are reshaping accessibility and continuity of care
- Personalized and Precision Dentistry**
Integrating genetic, lifestyle, and microbiome data to tailor prevention, diagnosis, and treatment for individual patients.
- Periodontology : From Microbiome to Regeneration**
Revolutionizing periodontal care through microbiome research, host modulation, regenerative techniques, and precision diagnostics.
